A New Back for an Old One—How a Mount Sterling Resident Made a Bad Back Strong.

The back aches at times with a dull indescribable feeling, making you weary and restless; piercing pains shoot across the region of the kidneys, and again the loins are so lame that to stoop is agony. No use to rub or apply a plaster to the back if the kidneys are weak. You cannot reach the cause. Follow the example of this Mount Sterling citizen.

Mrs. Enoch Bruton, 20 Harrison St., Mt. Sterling, says: "One of my family was in bad shape with kidney trouble and suffered intensely from a lame back. Doan's Kidney Pills were procured at Duerson's Drug Store and one box gave great relief. I have also used this medicine and it has helped me wonderfully."

OVER THREE YEARS LATER, Mrs. Bruton said: "I gladly confirm all I said about Doan's Kidney Pills before. They are certainly a good kidney medicine."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Bruton recommends. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv. (7-24)

When Cleopatra was on the turf, old-fashioned people said the world was going to the devil. But you will notice the world is still here, and that old-fashioned people are still talking that way. It all points to the lesson that there is no need of getting too excited about the destiny of the world because skirts are thin now and then.

BUMPER CROP OF CEREALS

Three billion bushels of corn, a billion and a half bushels of oats, and a billion bushels of wheat constitute the prospect for this year's American harvest. Record crops of rye, Irish and sweet potatoes, tobacco, rice and hay also are predicted for the prosperous farmers who have planted 310,546,000 acres or ten millions acres more than last year, to their principal products.

The wheat crop, the greatest ever grown in any country, will be worth more than a million dollars, while the corn crop's value may reach two and a half million.

Estimates of the principal crops, announced by the Department of Agriculture, based on conditions August 1st, show all crops to be greater than last year. Interest centered on wheat and corn. Both showed improvement over July conditions. Though excessive rains and cold weather in the Central States interfered with threshing oats and wheat, also suffered in those States, the improvement in other sections more than offset this defection.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

CLIPPINGS FROM THE SNAGTOWN TORCHLIGHT

Tom Eddy, who has gained much notoriety as a dentist during his leisure hours at the blacksmith shop, mixed business with pleasure yesterday by pulling a fine tooth for Miss Rosa Hanstep.

Some women are raving temperance advocates, still they never took a drink in their lives.

Old Bob Houghton has had a window light put in at his house. Now Miss Myrtle can knock on the window pane at Willie Howe when he passes.

Bird eggs, after having been thrown around, will not hatch.

John Dashner had his picture made while over at Punkin Center a few days ago. It is a very good resemblance of John, but there is a little blur around the necktie, he having swallowed just as the camera went off.

H. C. Denton, the Coon Holler preacher, had on another clean shirt last Sunday. Ralph Lynch says he can't see how some folks can afford to dress so well.

J. F. Cross is again in our midst, having returned this week from an absence of several days in the Bull Bayou neighborhood. He brought back a good cow whose former ownership is clouded in mystery.

W. C. Herman was the party of the first part in a shooting affray at the moonshine still house Saturday afternoon. However, he got the advantage of his opponent, and fired several shots in succession, under the plea of self-defense. One of the shots would have struck a lady a few yards away but fortunately John Dashner was in the bullet's pathway and stopped it.

Once a cigar stump gets under your feet it is harder to get rid of than a friendly cat.

Jack Goodine, had he had the advantage of earlier training, might have become a sleuth equal to the deputy constable, Doc Walz. As it is he is still possessed of a pair of keen eyes and considerable shrewdness. Friday morning he saw the track of a mink in his back yard near the chicken roost, and getting a pencil and paper he copied it off and started out through the Panther Creek bottoms in search of the owner. After hunting for many hours and examining several minks he at last was rewarded with success, having found the animal it fitted and returned home with him.

Charley Bryan was seen buying a stamp at the post office Thursday morning. It is believed that he is preparing to send a letter through the mails.

The editor of the Plunkville Patriot is at sea over the working of the new law which requires all editors to state under oath who owns their printing plants. He doesn't know who owns the Patriot, as it has never been paid for.

Charley Bryan says he cannot see how some roosters are able to be around so much in the day time after having set up all night crowing.

While Jack Dashner was over to see Miss Fizzie Tootsie Sunday evening he enjoyed some funny moving pictures by turning the leaves in the family album right fast.

Miss Rebecca Hittethipe heard someone disturbing their chicken roost Tuesday night but did not go out to see who it was as she did not want Willie Howe to see her with her hair rolled up.

scene one of the fellows invariably appears with a long face and says he'll have to back out.

The editor got religion last week which is all he ever got out of the town; but since that is priceless, he'll pack his grip and let the blamed town go at that.

H. C. Denton, a ventriloquist, exhibited at the Poison Ivy school a few nights ago. He was accompanied by two little sawed-off and hammered-down, wooden-faced looking fellows, one black and the other white, and while they sat on his knees and worked their lips, it is believed that the ventriloquist did all the talking.

There was an interesting contest at the Peavine Ridge store this week, as to who could keep a feather up in the air by blowing it. If the feather had got directly over one of Mrs. W. C. Herman's conversations she would have won the prize, Mr. Herman says.

Now that Deputy Constable Doc Walz has his own interests as a candidate well under hand, he will help Woodrow Wilson out in his race if he wants to run again.

A NICE PROFIT

A farmer, recently speaking of mules and the advantages of raising them, said he considered them the best crop he knew of and had been breeding them all his life and never owned a mule he could not sell, and usually at a nice profit. As an instance of what could be done with mules he said that three years ago he purchased five mule colts and placed them with three of his own breeding. He paid \$80 a head for the five, and that is probably a close average to the worth of the lot. During the summer they had the run of the pasture. As soon as the grain was out of the fields they were given the run of the stubble and stalk fields, and in winter were housed in a commodious straw shed and fed some grain. The next spring they went to blue grass. Four of the mules were sold during the summer, and the remaining four were sold at public sale that fall. The average selling price for the eight head was \$191.50.—Ex.
